

Pennsylvania Youth Foundation

WWWEB PUBLISHING SEMINAR

April 16, 2005, 9 AM - 4 PM - Masonic Conference Center - Patton Campus, Elizabethtown

For Youth Group Web designers, Web masters, Web advisors, and other Folks like YOU

More and more, for today's youth, the web *IS* the world. If they can't find it on-line, it doesn't exist for them. Leadership groups serving today's youth need to meet them where they are ... On-Line!

This one-day seminar is intended to provide youth group leaders with the basics of using the world-wide-web as a publication and communication tool for your group. You don't need to be a computer-whiz to benefit from this seminar, or to help your group establish an effective web presence.

Both active members of youth groups and adult volunteers are welcome to participate in this seminar, and representatives of both state-wide and local organizations are encouraged to send a representative. Previous participation in a PYF Publications Seminar is required.

This will be a "hands-on" seminar, providing participants the chance to explore real effective and not-so-effective sites on line, and opportunity to practice the principles discussed during the day. By the end of the seminar, participants will post "real live" content to the world wide web, and will see themselves "in print."

We will briefly review the variety of web-authoring tools available to youth group leaders, including some you may already have on your home computer, and don't even know about!

Space is limited, so sign up today!

THERE IS NO COST FOR PA MASONIC YOUTH GROUP MEMBERS OR REGISTERED ADULT VOLUNTEERS TO ATTEND THIS SEMINAR. LUNCH WILL BE PROVIDED.
