WHO ARE THE MASONS, AND WHY ARE THEY INTERESTED IN MY EDUCATION?

Freemasonry is the world's oldest and largest Fraternity. Its history and tradition date to antiquity. Its singular purpose is to make good men better. Its bonds of friendship, compassion, and brotherly love have survived even the most divisive political, military, and religious conflicts through the centuries. Freemasonry is neither a forum nor a place for worship. Instead, it is a friend of all religions that are based on the belief in one God.

Many of our nation's early patriots were Freemasons, as well as 13 signers of the Constitution and 14 Presidents of the United States, including George Washington.

Today, the more than three million Freemasons around the world come from virtually every occupation and profession. Within the Fraternity, however, they all meet as equals. They come from diverse political ideologies, but they meet as friends. They come from virtually every religious belief, but they all believe in one God.

One of the fascinating aspects of Freemasonry has always been how so many men from so many different walks of life can meet together in peace, never have any political or religious debates, always conduct their affairs in harmony and friendship, and call each other "Brother!" Freemasons are respectable citizens who are taught to conform to the moral laws of society and to abide by the laws of the government under which they live. They are men of charity and good works. They remain unchallenged as "the world's greatest philanthropy!"

The Freemasons of America contribute more than two million dollars every day to charitable causes, which they alone have established. These services to mankind represent an unparalleled example of humanitarianism, commitment, and concern by this unique and honorable Fraternity. Your education is important to them, because Freemasons are builders of character, and individual talent, and all those traits of good citizenship that preserve a free society.
